DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Glueck (Reg # 37,838) on 11/16/2006.

The application has been amended as follows:

- 1) In claim 71, please remove "An apparatus" and add —A computer— in its place. Also in claim 71, at the end of the first line, add —computer— before "program for causing....".
- 2) Cancel claim 72.

2. The following is an examiner's statement of **reasons for allowance**: The present invention is directed to an apparatus and method for video digest creation. Independent claims 51 and 61 identifies the uniquely distinct feature for "wherein said extraction means calculates actual extraction timings based on (a) a total time of the image signal stream from which the digest image is generated and (b) the procedure information selected by said selection means, and extracts, at each of the actual extraction timings, a part of image signals from the image signal stream, which part has a predetermined extraction period corresponding to a respective one of the predetermined extraction

timings." The closest prior art, Shimazaki et al (US 6,160,950), Legall et al. (US 6,005,565), Morita et al. (6,584,463), Gotoh et al. (6,078,726) and Nagasaka et al. (5,818,439) disclose conventional devices for creating digest/index images of a video program, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
